Iowans for Medical Marijuana was incorporated in October of 2006 to petition the Iowa Board of Pharmacy to recommend the reclassification of marijuana as medicine in Iowa.

In April of 2009 the Iowa District Court found the board had acted illegally in denying our petition, and in February of 2010 the board ruled unanimously to recommend the reclassification of marijuana as medicine in Iowa. And, in April of 2015 the Iowa Senate voted unanimously to accept the board's recommendation.

Where do we go from here? We look forward to seeing you at our conference to discuss this issue!
