Was diagnosed in April 2018 with emphysema. This led to hospitalization and further diagnosis of pulmonary hypertension with edema and right heart failure. Transferred to Mayo clinic where they said condition was chronic and terminal. They placed me on heart and lung transplant, but since May I was discharged from Mayo and returned home. I have elected not to do transplant due to low risk of success and quality of life concerns. Currently on Palliative with Unity Point Hospital in Fort Dodge, IA. Life expectancy is 1-2 years. I currently suffer body pain daily, tremors, nausea, severe migraines, and other side effects. Palliative team suggested I apply for medical marijuana card online.
