The Legislature hereby finds and declares it necessary to establish an emergency program to provide appropriate medical marihuana for certain patients whose serious condition is progressive and degenerative or for whom delay in the patient's certified medical use of marihuana poses a serious risk to the patient's life or health, and that emergency action is needed before the full medical marihuana program established under title V–A of article 33 of the public health law is implemented, to protect the life and health of these patients.

§ 2 Section 3360 of the public health law is amended by adding a new subdivision 18 to read as follows:

9. (a) A certification may be a special certification if, in addition to the other requirements for a certification, the practitioner certifies in the certification that the patient's serious condition is progressive and degenerative or that delay in the patient's certified medical use of marihuana poses a serious risk to the patient's life or health.

(b) The department shall create the form to be used for a special certification and shall make that form available to be downloaded from the department's website.

§ 4. Section 3363 of the public health law is amended by adding a new subdivision 16 to read as follows:

16. The commissioner shall make regulations for special certifications, which shall include expedited procedures and which may require the applicant to submit additional documentation establishing the clinical basis for the special certification. If the depart-

The purpose of the program is to expedite the availability of medical marijuana to avoid suffering and loss of life, during the period before full implementation of and production under this title, especially in the case of patients whose serious condition is progressive and degenerative or is such that delay in the patient’s medical use of marijuana poses a serious risk to the patient’s life or health. The commissioner shall implement the program as expeditiously as practicable, including by emergency regulation.

Where an entity seeking to be a registered organization under the program operates in a jurisdiction other than the state of New York, under licensure or other governmental recognition of that jurisdiction, and the laws of that jurisdiction are acceptable to the commissioner as consistent with the legislative intent and purpose of this title and this section, then the commissioner may accept that licensure or recognition as wholly or partially satisfying the requirements of this title, for purposes of the registration and operation of the registered organization under the program and this section.

4. In considering an application for registration as a registered organization under this section, the commissioner shall give preference to the following:

(a) an applicant that is currently producing or providing or has a history of producing or providing medical marijuana in another jurisdiction in full compliance with the laws of the jurisdiction;

(b) an applicant that is able and qualified to both produce, distribute, and dispense medical marijuana to patients expeditiously;

(c) an applicant that proposes a location or locations for dispensing by the registered organization, which ensure, to the greatest extent possible, that certified patients with a special certification have access to a registered organization.

5. The commissioner may make regulations under this section:

(a) limiting registered organizations registered under this section to serving patients with special certifications;

(b) limiting the allowable levels of cannabidiol and tetrahydrocannabinol that may be contained in medical marijuana authorized under the program, based on therapeutics and patient safety.

6. A registered organization under this section may apply under section thirty-three hundred sixty-five of this title to receive or renew registration.
