Consumable Hemp Product List Upload Guide

INTRODUCTION

This guide is designed to help consumable hemp registrants submit, maintain, and edit their product lists pursuant to 641 IAC 156. Registrants are required to submit a product list upon the registration of a facility, at renewal of a facility, maintain an accurate product list throughout the period of registration, as well as make any changes in response to a “Pending” notice if a product list is not approved.

REQUIRED CONSUMABLE HEMP PRODUCT LIST INFORMATION (MANUAL ENTRY OR CSV FILE)

1. **“Active”**

Upon submission of a registrant’s first registration with HHS, all submitted products will be those intended for sale by the Registrant, and “Active” by default. This can be edited at any time throughout the registration period. A value of “**Yes**” indicates the product is still being manufactured or sold by the registrant. A value of “**NO**” indicates the product is no longer being manufactured or sold by the registrant.

2. **“Brand Name”**

Pursuant to 641—156.1, this field must indicate the Brand name of the product provided by the Manufacturer. Non-cannabis examples include "Toyota", "Ford," “Coca-Cola,” etc. Real world examples of Consumable Hemp Brand Names may include “Charlotte’s Web,” “Lumi Labs,” “CV Sciences,” etc.

3. **“SKU”**

To avoid duplicate products upon updates, registrants must provide an identifier unique to the product (SKU), as provided on the label by the manufacturer. The generally conserved format for SKU is below:

When submitting SKU information for a product, refer to an individual product container, or request this information from the Manufacturer.

4. **“Product Name”**

This free-text entry represents the specific Product Name as provided by the manufacturer. In the Brand Name examples of "Toyota", "Ford," “Coca-Cola,” corresponding Product Names may be “Camry,” “F-150,” and “Coke Zero,” respectively.

In the Brand Name examples of “Charlotte’s Web,” “Lumi Labs,” “CV Sciences,” corresponding Product Names may be:

- 25MG CBD Oil Capsules
- D9 THC Strain Specific Gummies
- CBD Infused Roller

Please capitalize each individual word of the Brand Name as provided in the examples and by the Manufacturer, as well as any punctuation.

5. **“Product Form”**

From the predetermined options, a Registrant must enter the most appropriate “Product Form” definition for the product:

1. **Edible**

- A product that contains food, or what a reasonable person would determine as having food ingredients
- Examples include, but are not limited to: gummies, chocolate, drinkable beverages, syrups, etc.

2. **Oral**

- These are products that may be ingested orally, but may not be considered edibles or include specific food ingredients
- Examples include, but are not limited to: unflavored tinctures, unflavored capsules or tablets, unflavored water-soluble mixes, etc.

3. **Topical**

- This is a product intended to be applied to the skin.
- Examples include, but are limited to: Lotions, creams, ointment, salves, rollers, etc.

4. **Other**

- If a product does not clearly fit into one of the above categories, please select “Other” and complete the rest of the required columns for this product.

6. **“Total Cannabinoids per Serving”**

Pursuant to 641—156.1, if cannabinoids are contained within, or marketed for the product by the Manufacturer the number of cannabinoids per serving must be provided in milligrams (mg). This number should represent the aggregate amount of all cannabinoids (Delta-8, Delta-9, and Delta-10, THC-O, THCa, CBD, CBDa, etc.) per serving as provided by the manufacturer. Please refer to the product container for this information, or contact the manufacturer.

Examples of Total Cannabinoids per Serving may be "5," "10," "20," etc. Entering anything other than a whole number into this field will return an error message when submitting your list.

7. **“Total Cannabinoids per Container”**

Pursuant to 641—156.1, a registrant must submit documentation indicating the aggregate amount of all cannabinoids (Delta-8, Delta-9, and Delta-10, THC-O, THCa, CBD, CBDa, etc.) per container as provided by the manufacturer. Please refer to the product container for this information, or contact the manufacturer.

Examples of Total Cannabinoids per Container may be "50," "100," "300," etc. Entering anything other than a whole number into this field will return an error message when submitting your list. Registrants should round to the nearest whole number when indicating this value.

8. **“City Manufactured”**

The City of the jurisdiction of origin pursuant to 641 IAC 156.3(1)(a). This is a free-text field, and required whether the registrant is a manufacturer or a retailer by 641 IAC 156.2. Please refer to the Manufacturer website for this information, or contact the manufacturer.

9. **“State Manufactured”**

The State of the jurisdiction of origin pursuant to 641 IAC 156.3(1)(a). This is required whether the registrant is a manufacturer or a retailer by 65 IAC 156.2. Please refer to the Manufacturer website for this information, or contact the manufacturer. The values in this column must be a two-letter, state abbreviation

10. **“Manufacturer Website” (Link)**

Pursuant to 641 IAC 156.4(1)(d), a registrant must provide a URL, or website link, that provides the contact information for the Manufacturer, including: Name, Telephone number, and Email address. The link must include "http://" or "https://" in order to be submitted. This may be the website of the registrant, if the registrant is a manufacturer.

11. **“COA” (Link)**

Pursuant to 641 IAC 156.4(1)(f), a Registrant must provide a link to the individual product’s Certificate of Analysis (COA) from the product’s manufacturer. This COA shall include:

- Information indicating the presence and concentration of cannabinoids, including delta-9 tetrahydrocannabinol, tetrahydrocannabinolic acid, cannabidiol, and any other cannabinoids for which the product is being marketed

- Information indicating the total delta-9 tetrahydrocannabinol concentration does not exceed 0.3% (inclusive of any isomers, derivatives, and analogs, whether naturally occurring or synthesized) on a dry weight basis as calculated pursuant to an official test, as provided by Iowa Code Section 204.8.
- Information indicating the consumable hemp product is from a batch that has been tested for pesticides, residual solvents, metals, harmful pathogens, and toxicants and does not exceed limits pursuant to 641 IAC 156.3(2).

Please review the detailed requirements for COAs in Administrative Rule (Iowa Administrative Code 641, Chapter 156) prior to submitting your product list, or contact the Manufacturer for additional information. It is the responsibility of the registrant to ensure each product has a corresponding, compliant COA.

If the Manufacturer of the Consumable Hemp did not provide a COA, the Registrant must request it from the Manufacturer.

PRODUCT LIST COLUMN DESCRIPTIONS AND “HOW-TO”

I. “Active”

Upon submission of a registrant’s first registration with HHS, all submitted products will be those intended for sale by the Registrant, and “Active” by default.

At renewal, or if a registrant needs to amend or update their product list during their registration’s current effective period, you will have the ability to view and download the product list on-file for the registration. Please use the information below when updating your product list:

- Is the product currently being manufactured or sold by the registrant?
 - Enter a value of “**Yes**” if the product is still being manufactured or sold by the registrant.
- Upon updates, enter a value of “**No**” if the product is no longer being manufactured or sold by the Registrant.
 - By entering a value of “**No**” for any product, after submission of your product list, those “inactive” products will be archived, and no longer present in your “active” list view.

Example:

A	B	C	D
Active	Brand_Name	SKU	Product_Name
Yes	Hemp Company	1234-5678	Full Spectrum CBD Gummy

- Product indicated “Yes” as “Active.” Product will be added or maintained within the Registrant’s product list.

A	B	C	D
Active	Brand_Name	SKU	Product_Name
No	Hemp Company	1234-5678	Full Spectrum CBD Gummy

- Product indicated “No” as “Active.” Product will be removed from Registrant’s product list upon upload and submission.

A	B	C	D
Active	Brand_Name	SKU	Product_Name
	Hemp Company	1234-5678	Full Spectrum CBD Gummy

- Not indicating “Yes” or “No” value will return an error message, indicating your need for correction.

2. “Brand Name”

This is a free text field. Please capitalize each individual word of the Brand Name as provided in the examples and by the manufacturer, as well as any punctuation.

Example:

A	B	C	D
Active	Brand_Name	SKU	Product_Name
Yes	Hemp Company	1234-5678	Full Spectrum CBD Gummy

- Each word is capitalized. If submitting multiple products from the same “Brand Name,” it is recommended to copy and paste to ensure accuracy.

A	B	C	D
Active	Brand_Name	SKU	Product_Name
Yes		1234-5678	Full Spectrum CBD Gummy

- A blank cell in this column will return a “missing value” error message, indicating your need for correction.

3. “SKU”

To avoid duplicate products upon updates, registrants must provide an identifier unique to the product (SKU), as provided on the label by the manufacturer. The generally conserved format for SKU is below:

When submitting SKU information for a product, refer to an individual product container, or request this information from the Manufacturer.

Example:

A	B	C	D
Active	Brand_Name	SKU	Product_Name
Yes	Hemp Company	2231027	Full Spectrum CBD Gummy

- The SKU, or similar information specific to the product, can be found on the product container. If no SKU or unique identifier is provided, please contact the manufacturer.

A	B	C	D	E
Active	Brand_Name	SKU	Product_Name	Product_Form
Yes	Hemp Company		Full Spectrum CBD Gummy	edible

- A blank cell in this column will return a “missing value” error message, indicating your need for correction. .
